

Lecturer/Advisor:	Dr. Ngoc Long Le
Topic:	Several important applications of Computer Algebra related to Gröbner bases, Hilbert functions, and finite sets of points
Study programmes:	Master in Computational Mathematics, Master in Informatics
Access requirement:	Computer Algebra or equivalent basic knowledge of Algebra
Preliminary meeting:	Thu., 18.07.2019, 16:00, Room IM 242
Language:	English
Seminar schedule:	Block dates at the end of the semester
